## PREFACE.

—

This new revised and enlarged edition of the CANADIAN PARLIAMENTARY GUIDE AND WORK OF GENERAL REFERENCE has been somewhat delayed by reason of recent numerous general elections in Canada, but it has the advantage of being brought up to the London and North Oxford bye-elections on June 13. Some of the errors which crept into the last edition have been corrected and if any others appear in this edition the Editor will be obliged to any person who would point them out so that an approach to perfection in the next edition may be attained. In this edition there are almost thirteen more pages than in the last and much useful information not easily accessible elsewhere will be found in the first twenty and the last four pages.

OTTAWA, June 26, 1905.

# THE CONSERVATIVE PLATFORM.

Previous to the Elections to the House of Commons held on Nov. 3, 1904, Mr. R. L. Borden, Leader of the Opposition, issued the following address to electors; as reported in the press:—

HALIFAX, N.S., October 24, 1904.

*To the People of Canada*:

Parliament is now dissolved, and political parties must submit themselves, their actions and their policy to the judgment of the people.

Since my election to the leadership of the Liberal-Conservative party, it has been my privilege to address audiences in every province and territory of the Dominion, the Yukon excepted, and with my colleagues to discuss in Parliament many subjects affecting the public weal. Our policy has been clear, defined and consistent, the same in every quarter, alike to every class.

## TRANSPORTATION.

The records of Parliament show where we stand on the public questions which have been before the country since the last elections. These cannot all be discussed in this message, but in regard to some of the principal issues involved in this contest I submit in a few words from the platform on which we appeal for your judgment.

The subject of most immediate concern is transportation. Having regard to the enormous obligations which would be imposed upon the people by the Government's rash trans-continental projects, to the certainty that its adoption by you would shut out for a century Government ownership of railways, to the vital importance of controlling our own traffic and commerce, this question is the most momentous and far reaching that has ever been submitted to the electorate of Canada, The immense territory and ever increasing products of Canada demand the best and most economical transportation. We know that the people are willing to provide generously whatever money may be necessary for the development of the Dominion, and our policy is to extend and improve its transportation facilities by land and by water. But we insist that what the people pay for, the people should own and control; that public money should be used for Canada, for its people, and not to promote the trade and wealth of foreign ports.

We fully realize the country's need for increased facilities of transportation. Efficient service and reasonable rates must be assured. In utilizing the public credit for these purposes we must be thoroughly guard against the diversion of our trade into the hands of foreign competitors.

The Government seeks to impose upon the people liabilities amounting to at least $150,000,000, for the construction of a transcontinental railway under conditions which absolutely fail to safeguard our national interests. The important and immediately profitable western division is to be owned and the whole is to be absolutely controlled by a corporation interested in diverting our trade away from our own ports. We oppose to this our declared policy of constructing the new transcontinental railway as a public work to be owned and controlled by the people, and to remain a national highway in the truest sense. I beg you clearly to understand that it is still open to you to decide whether this shall be done. Do not be misled by any assertions to the contrary.

We affirm that the management of the Intercolonial Railway and of other railways operated by the Government should be freed from partisan interference and from party political control.

We also confirm the necessity of thoroughly equipping our national ports and of developing and extending our system of canals and inland waterways.

## THE FISCAL ISSUE.

The principles upon which Sir John A. Macdonald based his fiscal policy in 1878 guide us today. We maintain and we will develop that policy for the advancement of the whole Dominion. It is a stable policy avowed openly without reserve. It is a practical business policy, adjustable to the needs of the time. Our aim is so to apply it for the common good of the people and for the conservation of the Canadian market for the Canadian producer, that honest industry in every legitimate calling may receive a just reward, that the toiler may enjoy in his own land full employment under conditions which ensure a just wage, that capital may be attracted to and may be safely invested in our industries, that articles and commodities required for the use of our people may be produced as far as is reasonably possible in this country.

We believe that any extension of our markets by means of reciprocal trade arrangements should be sought among

those within the Empire who are our chief customers, rather than in foreign countries. A preference for our products in British markets would lead to an immediate enormous development of our resources. Such a preference the Conservative party will endeavor to obtain on favorable terms.

In making appointments to public offices we shall place personal character and capacity above considerations of party service, and such additional safeguards will be provided as may be found necessary for the full protection of the public treasury.

More efficient means will be devised to guard against corrupt practices at elections and to protect the electorate from fraudulent devices by which the will of the people has been so often thwarted, and the name of Canada degraded.

Inspired with an abiding faith in the justice and wisdom of our policy, and with an earnest confidence that it will prevail, we now submit it for your consideration, believing that it merits and that it will receive your approval.

ROBERT L. BORDEN.

## THE PARTY PLATFORMS.

### THE CONSERVATIVE PLATFORM.

The following resolutions, as reported in the *Mail and Empire*, Toronto, were adopted at a Conference of the Conservative party of Ontario, which met at the Provincial Capital on November 24 and 25, 1904:—

That this Conference expresses its high appreciation of J. P. Whitney in the interests of good government, popular rights and administrative reforms. That it pledges itself to uphold him in his patriotic fight for a better condition of things and that it undertakes to urge upon the people the necessity of aiding him in his endeavors, and of thus rescuing Ontario from a situation that is both intolerable and dangerous.

That this Conference declares its hearty approval of the policy and principles of Mr. J. P. Whitney and the Liberal-Conservative opposition as enunciated in Mr. Whitney's address to the Conference, and as shown and set forth by the journals of the House and the public records of the Province.

That, in the opinion of this Conference, a local mining office should be established in each mining district, where all information in regard to the mining lands in such districts may be obtained free of charge, and where a location map shall be kept on which each application, when made, shall be marked, and such application shall be granted in the order in which they are received at such office.

That this Conference feels that the sphere of usefulness of the Ontario Agricultural College should be improved and extended and that, inasmuch as not more than two per cent. of the farming community enjoy the advantages of training at the College, an earnest effort should be made to disseminate more widely the valuable information available at that institution; that the schools of the Province should be utilized for these purposes and bulletins on timely agricultural topics be circulated among the schools for the instruction of the pupils, and with a view of keeping before the boys in the rural sections the advantages of a thorough agricultural training.

That in the opinion of this Conference, the respective funds created to encourage and assist the tile and municipal drainage, be enlarged from time to time as necessity may require. That henceforth the interest on the monies already loaned, as well as those to be loaned, shall not exceed the actual cost thereof to the Province.

That in the opinion of this Conference as to lands now or hereafter opened for settlement, the bona-fide settler should have the free grant of the lands and all timber and minerals thereon, subject to proper restrictions and regulations to prevent the location of lands unfit for settlement for agricultural purposes. That actual settlement in Ontario should be encouraged, and nothing be permitted to prevent or retard bona-fide settlement or the development of mineral properties; providing that where timber licenses cover lands required for settlement or mineral development, equitable arrangements be made protecting the just rights of licensees.

That this Conference endorses the attitude of the Conservative representatives, as shown by the records of the Legislature, on the principle of the public ownership of public utilities and heartily approves of the following words of our leader in calling the Conference:—

"In the presence of great public peril, party designation "and differences are of secondary importance.

"The first great necessity of the situation is clean, "honest and decent government. The policy of the "Opposition in the Legislature is familiar to the people, "and has received their endorsement and ratification by "a majority of six or seven thousand voters. To this "record we point with pride.

"The question of increasing the means of obtaining "agricultural instruction by adding it to the curriculum "in the High Schools and Collegiate Institutes and pro- "viding parcels of land for practical work, and also the "question of the encouragement of systems of sewerage "in towns and villages are among the questions advocated "by us.

"Legislation should be had to facilitate the acquirement "by municipalities on proper and reasonable terms of all "public utilities, and also to provide machinery for the "prompt settlement of disputes between capital and "labor.

"At the last session of the Legislature, the Opposition "proposed that the Temiskaming Railway, constructed "and owned by the Government, should be operated by "the Province for a term of years. This opportunity "for a practical test of government operation of railways "was voted down by the Government.

"The attitude of the Opposition on the question of the "proper assessment of railway property was made clear "by their efforts to pass the Pettypiece bill as a basis for "action—efforts which failed when the promoter of the "bill abandoned it and joined the Government in killing "it. These are some of the questions on which the people "are interested.

"But, I repeat, the first great necessity of the situation "is clean, honest and decent government. We are all "familiar with the humiliating story of the iniquities "which have been perpetrated, and by means of which a "minority Premier has been enabled—and, alas! has also "been willing—to defy public decency and flaunt before "the people his enjoyment of a position which he notor- "iously holds by virtue of such iniquities.

"By what the Government has done in the past we may "reasonably forecast what it may attempt to do in this, "its last effort to avoid public condemnation.

"In the face of the public danger, and in order to afford "an opportunity to avert it, I have called this meeting."

That this meeting heartily endorses and commends the action of Mr. Whitney in declining the proposals of coalition made to him.

That this Conference is in favor of the better inspection of factories and of the labelling of prison made goods as prison made goods and the proposal of Mr. Whitney for the enactment of legislation for the settlement of labor disputes.

That this Conference, in recognizing that abuses exist in connection with the liquor traffic, places itself on record as being in full sympathy with all well directed efforts to promote temperance and moral reform.

## THE LIBERAL PLATFORM.

Adopted at a Convention held in Toronto, November 23 and 24, 1904, as published for distribution by the party executive.

1. Education and Agriculture.

That this Convention affirms its confidence in the instruction of the youth of Ontario in all the courses of study directed by the Educational Department, to which have recently been added those practical courses of study which specially fit them for agricultural and industrial pursuits, and in this connection desires to express its approval of the introduction of manual training and domestic science into the Normal, Public, High and Separate Schools and the establishment of Technical Schools in several of the leading cities of the Province. Technical education might well be further assisted, and the Dominion Government should lend substantial aid in this branch of study, affecting as it does the interests of trade and commerce. This Convention further expresses its approval of the educational work of the Department of Agriculture through the Agricultural College, Farmers Institutes, Dairy Schools, Fruit Growers Associations and other similar associations, feeling confident that, judging by the past record of the Liberal party, Ontario will continue to hold a preeminent position among the Provinces of the Dominion for educational enterprise and efficiency, under a Liberal administration.

That the Provincial University in all its departments should continue to receive such support from the Legislature as its growing needs may require, and as the interests of higher education imperatively demand.

2. Purity of Elections.

That this Convention, representing the Liberal Party of the Province of Ontario, repudiates and condemns in the most unqualfied terms every form of bribery, by which electors are illegally or corruptly influenced at elections to the Legislative Assembly, and all fraudulent schemes to defeat the honest purpose of the electorate, as being a violation of the fundamental principles of responsible government and contrary to the spirit and traditions of the Liberal Party.

And this Convention would also call upon the Liberal members of the Parliament to devise the most ample means whereby election trials shall be continued until every offender is duly convicted and punished, and that no political or other considerations be permitted to stand in the way of the fullest vindication of the sanctity of the ballot, and the protection of public morals even to the extent of disfranchising constituencies reported by the courts to be wantonly and criminally corrupt.

That any candidate bearing the Liberal colors should try to complete his organization out of reputable men residing or having business connections in his own riding, and that it is an active duty of every Liberal candidate to see that no person who has been judicially noted for corrupt practices is included in his electoral organization or brought into political contact with his constituents.

3. Railway Assessment and Taxation.

This Convention would approve of any legislation whereby the property of railways should contribute to the revenues of municipalities and the Province on a basis of assessment and taxation in every respect equal to the assessment and taxation of the property of private citizens or other corporations, and that in the framing of such legislation the recommendations of the railway taxation commission appointed at the last session of the Legislature should be carried out so far as may be found suitable to the conditions existing in the Province of Ontario.

4. Extension of Temiskaming Railway.

That this Convention approves of the construction of the Temiskaming and Northern Ontario Railway by a Commission appointed for that purpose by the Govern-

ment as a practical demonstration of Government Ownership by the Province, and that the extension of the Temiskaming and Northern Ontario Railway to the intersection of the Grand Trunk Pacific, near Lake Abittibi, should be pressed forward with the greatest diligence, and that surveys should be made at an early day between the said point of intersection and Moose Factory, in order to ascertain the practicability of extending the Temiskaming and Northern Ontario Railway to Hudson's Bay, and thus connecting the fisheries of that great island system of waters with the business centres of the Province of Ontario.

That it shall be the duty of the Minister having charge of the colonization and settlement of the new districts, after conference, if necessary, with the Commissioners for the construction of the Grand Trunk Pacific, to determine at what points, having regard to the advantages of settlement and the availability of water power and other proper considerations, sites for towns along the said railway could be most advantageously situated, and having selected such sites, to cause the same to be surveyed, laid out and sold under the direction of the proper department of the Government, the proceeds of such sale to form part of the public revenues of the Province.

5. Timber and Minerals for the Settlers.

That all lands suitable for agriculture in the unorganized districts be thrown open for settlement as soon as possible and that every *bona-fide* purchaser or locatee of such lands shall on taking possession thereof have the right to cut for his own use or for sale, every description of timber thereon, pine only excepted.

That pending the issue of his patent, the settler shall have the right to cut and take, free of charge, so much of the pine as he may require for building and fencing or other uses, and that on completion of his settlement duties, the purchaser or locatee shall receive a patent from the Crown without reservation of pine, mines or minerals.

That the most liberal terms should be offered to prospectors for minerals, providing that the minerals discovered are developed within a reasonable time and not held purely for speculative purposes.

6. Provincial Charters.

That we desire to reaffirm our adherence to the principles of Provincial rights, and express our opinion that steps should be taken to prevent the incorporation of companies by act of the Dominion Parliament, which are purely local in character and operation, and which only obtain incorporation by the declaration that they are for the general advantage of Canada.

7. Pine and Pulp Wood Lands.

That before the pine and pulp wood on any of the lands now in the Crown are offered for public sale, a careful enquiry should be made by the Government to ascertain whether some method might not be adopted whereby the matured timber could be disposed of by open competition to be cut under the direction of forest rangers, leaving the remainder of the pine timber and pulp wood to be cut when sufficiently matured for the market, and that all lands on which pine has been cut should be reserved for re-forestration, with a view to preserve for the future needs of the Province a source of revenue which has yielded since Confederation $40,000,000 to the Provincial treasury.

That while this Convention approves of the concessions already made for the establishment of pulp industries, as being the only practicable method of securing the necessary capital for their early development, the Convention is of the opinion that in all future concessions north of the height of land where large areas of pulp wood timber, not interfering with pine timber limits, and numerous water powers exist, and where a water power and a pulp concession are both in the Crown and tributary the one to the other that both should be submitted to public auction jointly, one of the conditions of sale being that the purchaser should pay a bonus for the right of occupation and an annual rental for the water power as well as reasonable dues for the pulp wood required for the industry.

8. Provincial Commission for Protection of Municipalities.

That in the opinion of this Convention many public interests would be greatly protected by the appointment of a Provincial Commission having authority to deal with such questions as the bonding powers and capitalization of companies concerned in the operation of public utilities,

the application of municipalities for consolidating debenture debts, and by-laws of municipalities purporting to confer monopolistic rights in public utilities, such Commission to have power to advise upon the terms of such by-laws and generally upon other matters similar to certain State Commissions in the United States or Local Improvement Boards in the Mother Country.

9. Labor Question.

That this Convention is pleased to notice the progressive character of the labor legislation of the Province of Ontario during the last twenty-five years, by which wages are secured by liens and preferences over ordinary creditors or by simple processes at law, by which the safety of the working classes has been protected on railways and in factories, by which the hours of labor have been restricted, and facilities afforded for voting at municipal and parliamentary elections; by which the inspection of factories, bakeries and mines has been provided and a Labour Bureau established for collecting information with regard to the condition of labor in Canada and other countries.

That this Convention is of the opinion that those branches of the public service affecting labor should be consolidated with a view to the fullest consideration of the various matters with which they are concerned in order if possible to establish better relations between capital and labor, the avoidance of strikes by the best methods of conciliation and the prevention of unskilled aliens and prison labour from interfering with the opportunities of the working classes of the Province.

10. Minister of Colonization and Labor.

That in the development of New Ontario it is of primary importance that active measures should be adopted for the settlement of its agricultural lands by a judicious selection of the best class of immigrants from the old world, and by directing from the older counties of the Province those who might otherwise settle in other provinces or in the United States, and as all movements of population either within the Province or from abroad to the Province, unless carefully controlled, may injuriously affect the laboring classes and disturb the balance between the supply and demand for labor, skilled or unskilled, this Convention would recommend the appointment of a

Minister to be known as "Minister of Colonization and Labor," to whose department should be attached the immigration and colonization branches of the Government and also the Bureau of Labor, Factory Inspection, and any other branches of a kindred character that may hereafter be established.

11. Temperance Reform.

(1) That this Convention desires to place on record its unqualified conviction that intemperance is an evil with which there should be no compromise; that the temperance sentiment of the community, as evidenced by votes taken from time to time, has shown that the people are prepared for advanced legislation, and without reciting numerous amendments to the license act, on which there should be no difference of opinion, this Convention declares that any legislation which affords a well-grounded hope of being effective in curtailing and restraining the treating habit, in reducing the consumption of intoxicating liquors, in closing drinking resorts, and in preventing the sale of liquors on Sundays, and during prohibited hours, and the most vigorous enforcement of the license law in every particular, would meet with its approval as in the interests of public morals, the domestic comfort and the material wealth of the people of Ontario.

(2) That this Convention further believes that the power given to municipalities to close bars and shops under what is known as local option, if generally exercised, would greatly tend to remove the evils of intemperance, and this Convention would approve of legislation whereby the vote of a municipality must be taken under local option on the petition of twenty-five per cent. of the ratepayers, without reference to the Municipal Council; and further, that in any case of submission under the local option system, there be provision made for offering the alternative of Government control, or for the acceptance by the people of restrictions such as further shortening of hours, reduction of licenses, or Government control of business now carried on under shop licenses or otherwise.

(3) That no new licenses should be issued in unorganized New Ontario for all time to come; the Government should take charge of the necesseary sales for medicinal purposes, etc. In granting land for hotel sites it should be stipulated that no liquor is to be sold in them.

(4) That no new licenses shall be granted in licensed municipalities, except on a petition of 50 per cent. of the municipal electors of the polling sub-division where it is desired.

(5) That any license-holder convicted of violating the law twice shall thereby forfeit his license.

12. Public Utilities.

That it has been the policy of the Legislative Assembly under the direction of the Liberal party to give the greatest liberty consistent with safety to municipalities in regard to all matters of a local or municipal character.

That for over half a century the municipalities of Ontario have had the right of ownership in toll roads and bridges constructed for the use of the municipalities, and during recent years, under Liberal legislation, a similar right has been conferred with regard to such public utilities as water, heat, gas, electric light and power, telephone, street railways, public parks, libraries, etc.

That where these utilities were in the hands of private companies or corporations power was given to municipalities to take them over and operate them for the municipalities and the ratepayers.

That in 1902 provision was made whereby any municipality, either by itself or in union with other municipalities, could lease or own franchises of water powers for generating and transmitting electricity, and a committee of several municipalities is now considering how this power may best be exercised in connection with the generation of electricity for transmission to business centres in Western Ontario in connection with Niagara Falls.

That the Government obtained authority from the Legislative Assembly to construct at the expense of the public treasury the Temiskaming and Northern Ontario Railway for the purpose of opening up the northern districts of the Province, which railway is now owned by the Province.

That this Convention while approving of the course of the Liberal Party in promoting Public Ownership by the Government and by Municipalities, desires to express the opinion that any difficulty which experience has shown to stand in the way of ownership by municipalities of any

franchise which a majority of the qualified ratepayers in that behalf declare to be in the public interest should be removed (due regard being had to the private interests involved), and that all franchises for any public service of any kind whatsoever hereafter granted by a municipality shall be limited to a period not exceeding 30 years, with the right of purchase at any time within that period on such equitable terms as a properly constituted Board of Arbitrators might determine. This Convention would also approve of granting a Charter to Toronto and to other cities where geographical conditions or other circumstances would warrant such a course.

Mr. Semlin retired from the Chief Commissionership of Lands and Works and undertook the duties of the Provincial Secretaryship, Mr. Hume resigning that, but continuing to be Minister of Mines, while Mr. Carter-Cotton became Chief Commissioner of Lands and Works in addition to his office as Minister of Finance and Agriculture. Mr. Martin continued to hold the Attorney-Generalship and Dr. McKechnie the Presidency of the Council.

On July 27, at the request of the Premier, Mr. Martin resigned, and was succeeded, Aug. 7, 1899, by Mr. Alex. Henderson. On Feb. 27, 1900, Lieutenant-Governor McInnes, dismissed the ministry, and called on Mr. Joseph Martin to form a government.

## THE MARTIN MINISTRY.

Hon. C. S. Ryder, Minister of Finance.
Hon. Smith Curtis, Minister of Mines.
Hon. J. Stuart Yates, Chief Commissioner Lands and Works.
Hon. George W. Beebe, Provincial Secretary.

In April, 1900, Mr. Ryder retired and Mr. J. C. Brown became Minister of Finance. Mr. Martin appealed to the country, and, in consequence of the elections resigned office, June 14, 1900. Mr. Dunsmuir was called on to form a Cabinet. Another result of the elections was the dismissal from office of Lieutenant-Governor McInnes, June 21, 1900.

## THE DUNSMUIR MINISTRY.

June 15, 1900—November, 1902.

Hon. James Dunsmuir, Premier and President of the Council.
Hon. D. McE. Eberts, Attorney-General.
Hon. J. H. Turner, Minister of Finance and Agriculture.
Hon. Richard McBride, Minister of Mines.
Hon. W. C. Wells, Chief Commissioner Lands and Works.
Hon. J. D. Prentice, Provincial Secretary and Minister of Education.

The Premier and Messrs. Eberts and Turner were sworn in June 15, but Messrs. Wells, McBride and Prentice not till June 21. Mr. Turner resigned September 3, 1901, to accept position as Agent-General in London. Mr. Prentice became Finance Minister and Mr. J. C. Brown, M.L.A., was sworn in Sept. 3, 1901, as Provincial Secretary. Mr. McBride resigned from the Cabinet, in consequence of the calling in of Mr. Brown. On going back for re-election, Mr. Brown was defeated, and resigned his portfolio. Mr. McBride's place was filled by the appointment of Hon. E. G. Prior, Feb. 26, 1902.

Mr. Dunsmuir resigned Nov. 21, 1902, and Mr. Prior was called on to form a government.

## THE PRIOR MINISTRY.

Nov. 21, 1902—June 1, 1903.

Hon. Edward G. Prior, Premier and Minister of Mines.
Hon. D. McE. Eberts, Attorney-General.

Hon. James D. Prentice, Minister of Finance and Agriculture.
Hon. Denis Murphy, Provincial Secretary.
Hon. W. C. Wells, Chief Commissioner of Lands and Works
Hon. W. W. B. McInnes, President of the Council.

Messrs. Wells and Murphy were appointed Nov. 22, and Messrs. Eberts and McInnes, Nov. 25. Mr. Murphy relinquished office within a few days, and Mr. McInnes was appointed Provincial Secretary and Minister in Charge of Education, Dec. 1, 1902, having been President of the Council for one week.

On May 26, 1903, it was announced that Premier Prior had requested the resignation of Mr. Eberts and Mr. Wells. On May 27, Mr. McInnes resigned, in order, he explained, to facilitate an appeal to the country on party lines. The House reassembled, after an adjournment of some weeks, May 27. The adjournment took place in order to afford a special committee opportunity to take evidence in regard to the Columbia and Western railway land grants, and the position of officials of the C.P.R. in that affair. When the House re-assembled, Premier Prior stated that he had formed the opinion that it was impossible for the Government to be carried on effectively with acute differences of opinion existing between its members. He had acquainted the Lieutenant-Governor with the situation, and had been promised a dissolution as soon as the supplies had been voted. Subsequently the Premier moved the adjournment of House, and the motion was voted down by 14 to 17. After discussion, a motion, by the Opposition, to adjourn was also voted down, and subsequently a motion to adjourn, made by the Premier, was agreed to. On May 28, Col. Prior asked the House to vote the supplies necessary until the new House was elected. This request was refused by a vote of 19 to 16. Mr. Curtis moved for a committee to investigate a newspaper charge that Col. Prior had improperly secured a contract to his firm from a department of which he was at the time Acting Minister. He concurred in Mr. Curtis' motion. On the committee reporting the evidence, Col. Prior acknowledged that he had been indiscreet, but denied that he had been dishonest.

On June 1, the Lieutenant-Governor dismissed the

Prior Ministry, and called on the Hon. Richard McBride to form a government, which he succeeded in doing, as follows:—

# THE ROYAL MILITARY COLLEGE

There are few national institutions of more value and interest to the country than the Royal Military College at Kingston. At the same time its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government Institution, designed primarily for the purpose of giving the highest technical instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it is intended to take the place in Canada of the English Woolwich and Sandhurst and the American West Point.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and, in addition, there is a complete staff of professors for the civil subjects which form such a large proportion of the College course.

Whilst the College is organized on a strictly military basis the cadets receive in addition to their military studies a thoroughly practical, scientific and sound training in all subjects that are essential to a high and general modern education.

The course in mathematics is very complete and a thorough grounding is given in the subjects of Civil Engineering, Civil and Hydrographic Surveying, Physics, Chemistry. French and English.

The object of the College course is thus to give the cadets a training which shall thoroughly equip them for either a military or civil career.

The strict discipline maintained at the College is one of the most valuable features of the system. As a result of it young men acquire habits of obedience and self-control and consequently of self-reliance and command, as well as experience in controlling and handling their fellows.

In addition the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures good health and fine physical condition.

An experienced medical officer is in attendance at the College daily.

Five commissions in the Imperial regular army are annually. awarded as prizes to the cadets.

The length of course is three years, in three terms of 9½ months' residence each.

The total cost of the three years' course, including board, uniforms, instructional material, and all extras, is from $750 to $800.

The annual competitive examination for admission to the College will take place at the headquarters of the several military districts in which candidates reside, in May of each year.

For full particulars of this examination or for any other information, application should be made as soon as possible, to the Adjutant-General of Militia, at Ottawa, Ont.

# THE CANADIAN NORTH-WEST

## HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-West Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

## ENTRY.

Entry may be made personally at the local land office for the District in which the land to be taken is situate, or if the homesteader desires he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the Local Agent for the district in which the land is situate, receive authority or some one to make entry for him. A fee of $10 is charged for a homestead entry.

## HOMESTEAD DUTIES.

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto to perform the conditions connected therewith, under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

## APPLICATION FOR PATENT.
